Subject: Request for extension of M-tech thesis submission deadline

Respected sir,

I wish to apply for extension of M-tech thesis submission deadline by 3 months. My project is on development and accuracy analysis of structured light 3D scanner based on fringe projection technique. I have completed the development work but detailed experiments for its accuracy analysis are partially completed and are expected to require time beyond 30th September 2012. Hence kindly extend the thesis submission deadline.

Your sincerely

Pranav Kant Gaur
